

Living Our Mission

Betty Horner was chosen as “Living Our Mission” on October 13, 2009. She was recognized by Cindy Bailey.

"Betty has cheerfully given 35 years of dedicated service by going above and beyond the call of duty in providing outstanding customer service to patients, visitors and co-workers, all the while is fretting that she should have done just one more thing before leaving for the day. Betty also buys miscellaneous items for the kitchen to use and refuses to be reimbursed for these purchases."

With special thanks and much appreciation!
